

E2 CHALLENGE

ELIGIBILITY POINTS OF CLARIFICATION

Only students that are considered enrolled at WSU can apply for this program and, if their team is the team selected, receive stipend money. Up to half of the enrolled students on a team can be taking summer classes, and the other half must not be taking classes over the summer. Teams can have up to four enrolled student members. All of the enrolled students on the team, both those taking classes and those not taking classes over the summer, will receive stipend money as detailed in the program overview.

Please note the following:

- a. Students graduating in May 2009 and planning to attend graduate school at WSU starting in Fall 2009 are not considered enrolled students over the summer in 2009 for the purposes of this program and are NOT ELIGIBLE to receive stipend money under this program.
- b. Post Docs in general are not considered students and are NOT ELIGIBLE to receive stipend money under this program.

However, teams are allowed to have non-student collaborators such as faculty members or other outside parties (included the parties described in a. and b. above) – but they will NOT receive stipend money.

If you have any question regarding your eligibility to participate, please contact Eric Stief with details of your situation at:
